MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM: 25X1

Executive Secretary, IR&DC

SUBJECT: Artificial Intelligence Symposium - December 1983

1. The Council is sponsoring, through its Artificial Intelligence Steering Group (AISG), a three-day symposium on 6-8 December 1983 in the auditorium, tunnel and CIA Headquarters Building. Invitations will be extended to all members of the Intelligence Community and about 500 attendees are expected. The symposium will consist of presentations from academia, industry and government. There will be exhibits from companies who are involved in producing artificial intelligence products. The general theme of the symposium will be to provide community members an awareness of the different aspects of artificial intelligence, and understanding of what is available today, and what is projected for the future.   25X1

2. The AISG, which is chaired by Phil Eckman, intends to have a principal speaker for each day of the Symposium. Therefore, we would like to invite you to be our keynote speaker on the first day, 6 December at 0900 hours. The talk would be for about twenty minutes. We will provide a draft speech and talking points for your consideration if your 25X1
schedule permits your appearance at this function.   25X1
